EDUCATION

B.E (C.S.E)

Chitkara University

07/2017 - 06/2021

8.75/10 CGPA

WORK EXPERIENCE

Full Stack Developer

Mirra Healthcare

07/2021 - Present

Noida, UP

MIRRA's services touch all aspects of health care and integrate the patient, the provider, and the payer.

Responsibilities

- Created a product from a scratch. A medical insurance coverage platform which is fundamentally based on CMS(US based Medicare Federal Organization).
- Currently working on critical, core, module which is enrollment.
- Fixed critical Issues faced on Production and UAT.
- Stack on which I've worked on(Angular, C# Ado. Net, and MSSQL).
- Involved in full SDLC.

CodeQuotient

Full Stack Developer

03/2020 - 06/2021

Noida, UP

CodeQuotient is a Product, Service and Consultancy based company. Basically a Hybrid.

Responsibilities

- Dealt with a critical client on client side (Mirra-Health Care) in Medicare domain team.
- Worked on some core critical modules like, enrollment, transaction management, In-transit form management, address etc. which I handled solely.
- I have been also effectively dealing with the onshore BAs.
- Designed critical code structures of critical modules like transactions on the backend.
- Delivered session on Front-End Architecture Design more than once.
- Trained new joiners twice.
- Stack on which I've worked on (Angular, C# Ado .Net, and MSSQL).

Trello

PROJECTS

CreslinCare - Indian Health Care (Freelancing)

- A user-oriented technology-driven platform to ensure confidentiality and a personalized experience for customers. A whole front-end is designed by me (Angular & NodeJs).
- <https://creslincare.com/>

WeNidi - Accounting Software (Freelancing)

- Accounting WebApp, where I worked on fixing critical Issues and dashboard Implementation. (Angular, NodeJs & MySql).
- <https://dev.wenidi.com/signin>

Answer Den

- Grievances System using MERN Stack and Web Scraper(Cheerio).

Quiz Camp

- It's a platform where the admin can create quizzes and the user can attempt them. Technology used: NodeJS, MongoDB, and JS. Did pure DOM manipulation.
- <https://quizcamp.herokuapp.com>

Portfolio

- This is my portfolio which is made for fun, technology used is Angular.
